

JUVENILE JUSTICE TITLE II REQUEST FOR APPLICATIONS
TRUANCY and AFTERCARE/REENTRY
FREQUENTLY ASKED QUESTIONS

Q. Can you provide us with a specific reentry/aftercare scenario that defines the population associated with the Juvenile Justice Title II Part B Formula Grant?

A. The target population would be youth who are currently confined in a juvenile facility and could be broad or narrowly defined, such as sex offenders, those with substance abuse issues, violent offenders, older/younger youth, etc.

Q. Since reentry/aftercare can be defined broadly, what is considered reentry/aftercare for the purposes of this grant?

A. We purposely left the area broad to allow a wide scope of proposed projects. We will consider all projects proposed.

Q. Is the \$145,000 and the \$150,000 awards annual awards or do they represent aggregate amounts for the 2 year period in its totality?

A. This would be the total for a two-year period.

Q. Will the awards for each project area max out at \$145,000 and \$150,000 if two awards are granted for each project area based on the statement, "the Division anticipates awarding one to two projects for each of the stated purposes"?

A. The amounts stated are the entire budget for the project areas. Depending on the applications received and selected and the grant funds requested in the applications, we may be able to award more than one project in one or both categories.

Q. Can the same applicant apply for multiple program areas within the same county? Should separate proposals be submitted for different locations? Should separate proposals be submitted for each program area?

A. If a proposed program under Truancy OR Aftercare/Reentry will be implemented in multiple locations and by the same organization, then only one application should be submitted. Separate proposals should be submitted for proposed projects under the Program Areas Truancy and Aftercare/Reentry.

Q. Can the same entity apply for aftercare/reentry in one county or multiple counties and in addition then apply for truancy in another county or multiple counties?

A. Yes, but as stated above, should be separate proposals for Truancy and Aftercare/Reentry.

Q. As we would like to provide services efficiently and effectively, is there a specific county or area where the reentry/aftercare needs are greatest?

A. We have not identified any specific areas of the state where need is greater.

Q. Are we correct in our review, that no cash match is required for Title II programs?

A. That is correct. No cash match is required for Title II programs.
